Div. of Oil, Gas & Mining

October 24, 2012

Attn. Lynn Kunzler (Dept. of Oil Gas & Mining)

Lynn, thank you for taking the time to talk to me this afternoon. We are currently in talks with two different companies in regards to the mining operations we have. You have spoken with Robert Stone, the other person interested is Dave Socinski from Vermont, his Companies are Green Mountain Soapstone and Smart Stone. We understand our obligations on the Vermillion and Windy quarries and are working dilligently to resolve the bonding issues. The Windy claims bond is just about done at the bank. If we don't come to an agreement on the Vermillion quarry, Russell Limb is set to do the reclamation.

We have a visit planned for Dave to visit the sites on November 17th and 18th to find out his intent for the two quarries as well as a visit to the Snow White claims on the marble deposit, Dave has several Government contracts for white marble for the VA head stones.

We ask that if possible we can get an extension on the deadline for the bonding or reclamation until December 5th so we can have a little breathing room to select the better option between the two interested parties for the operations. It's hard to make good decisions when your back is against the wall.

If we can make a deal with one of these Gentlemen it could bring a significant impact economically for Utah and it's revenue base.

Sincerely,

Jeff Fawcett
